

RE-LABEL YOUR GARMENTS AND ADD VALUE YOU TO YOUR BRAND

WOVEN LABEL STYLES

MINIMUM ORDER QUANTITY - 500 LABELS PER DESIGN.

LOOP FOLD

This is the classic label used for the majority of garments. The label is folded in the middle and either sewn into or on top of the seam of the garment.

MOQ for stitching loop fold labels
25 pcs

MITRE FOLD

This rectangular label has 45 degree folded ends. The label is sewn into the garments using the folded tabs at either end.

MOQ for stitching mitre fold labels
25 pcs

END FOLD

This label has either end folded underneath the design. The label is sewn into the garments using the folded tabs at either end which hides the stitching.

MOQ for stitching end fold labels
100 pcs

SINGLE CUT

This is a flat label that is sewn directly onto the garments. The label is sewn all the way around the outside so that the back of the label is not visible.

MOQ for stitching single cut labels
100 pcs

UNPICK AND SEW

The neck taping of the garment is unpicked by hand and the manufacturer's label is removed. The new brand label is then inserted with a size loop next to it and a generic wash care label underneath. This wash care label is relevant to the particular garments fabric content. You are left with a professional looking garment with no mention of the manufacturer.

CUT AND SEW

The manufacturer's label is carefully cut out of the garment by hand. The new brand label is sewn with a single line of stitching onto the top of the neck taping. A wash care label relevant to the garment is inserted underneath the brand label and a size loop is stitched in next to it. This is a budget option that leaves you with a professional looking garment with no mention of the manufacturer.

GET CREATIVE

As well as woven neck labels you can add even more value to your brand with the addition of woven hem labels. These labels can be applied to hoodies, sweatshirt, beanies, caps and much more.

They are the perfect tool for stamping your brand name onto your garments in a stylish and fashionable way.
